

Mini games

Minigame insights

Event date range for the engagement and attendance charts: the last 14 days.

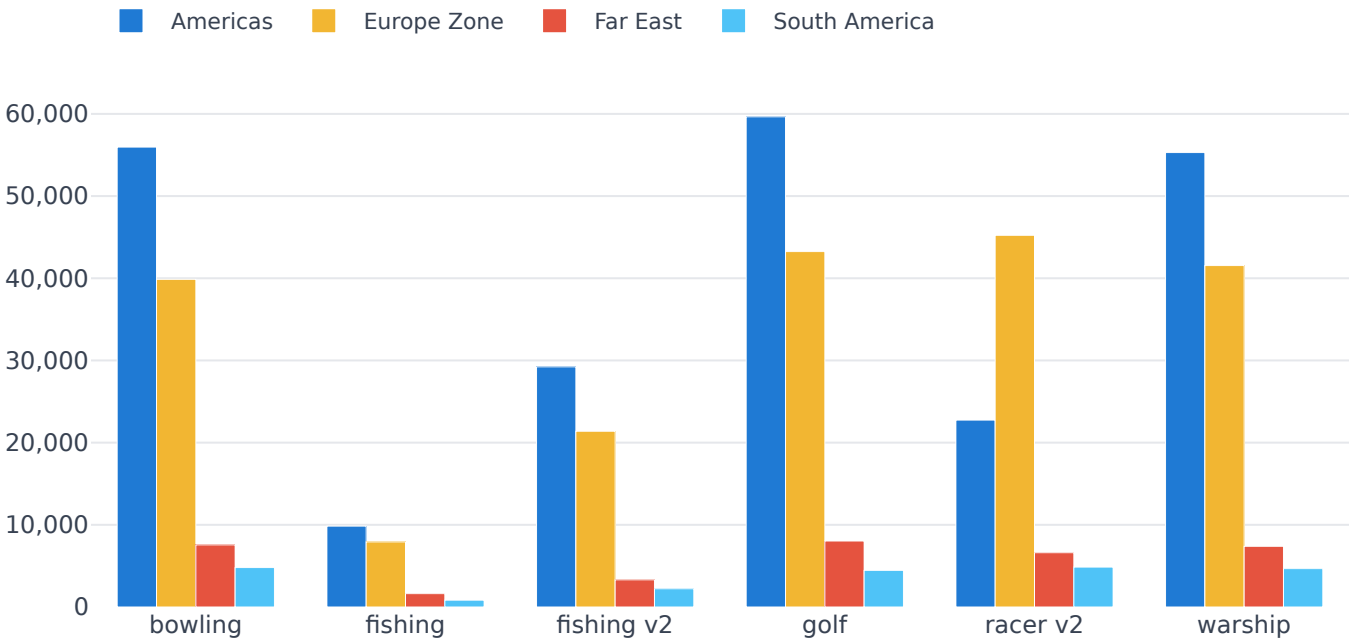

Minigame Engagement by Region

Games played in the date range

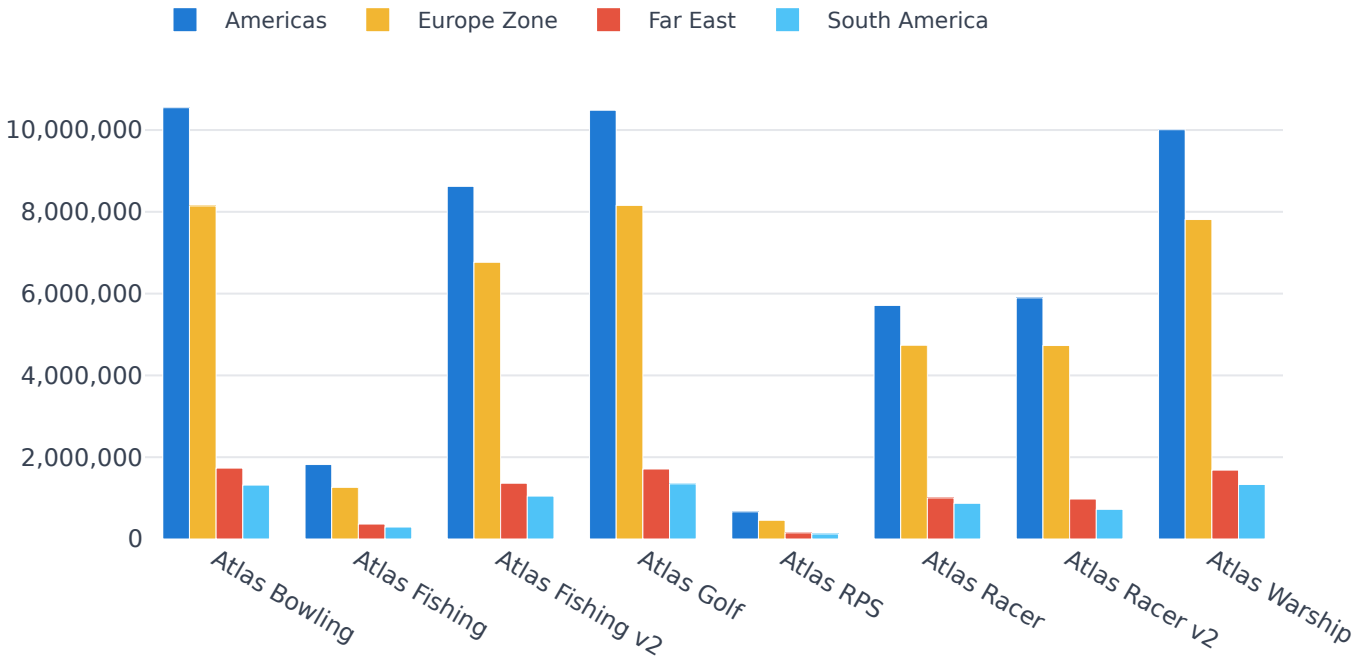

Minigame Attendance

Players per event summed over the date range

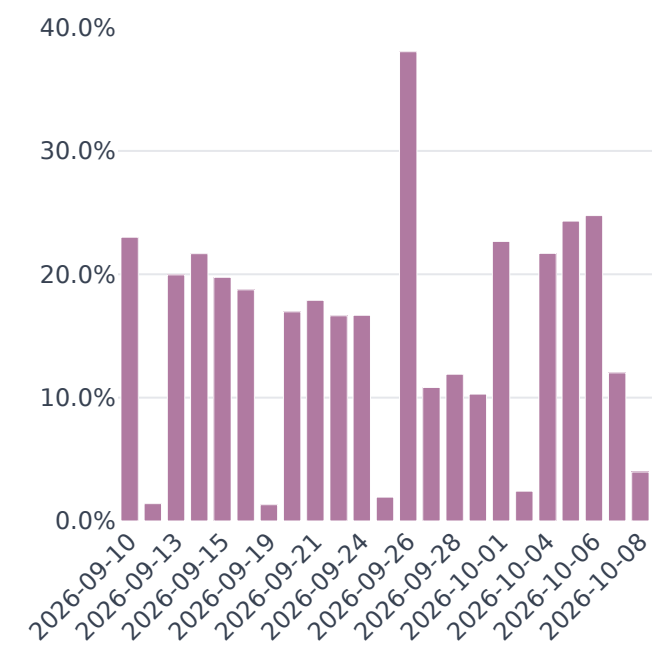

Ending Pot Size

Atlas Bucks in the final pot, every event on record (not affected by the date range)

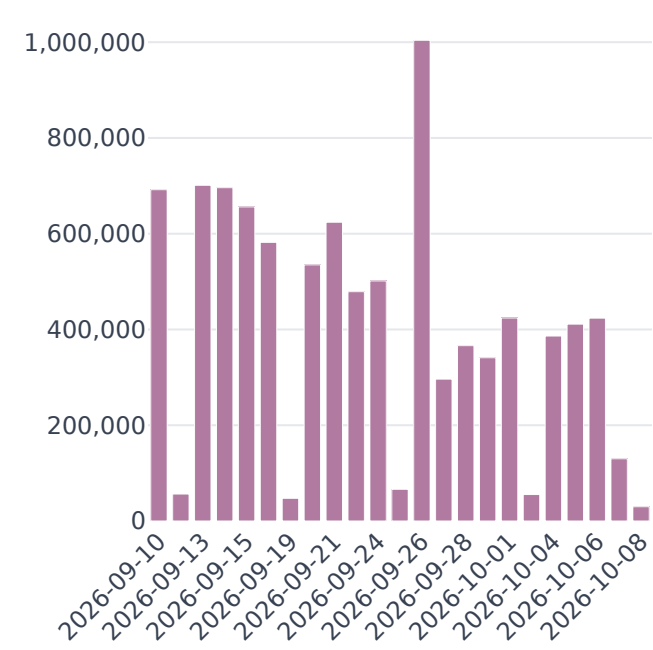

Minigame Penetration %

Minigame players as a share of Global DAU · event days in the last 30 days

Mini Game AB Awarded

Atlas Bucks paid out · event days in the last 30 days

Fishing v2 and Racer v2

All eight games are shown: bowling, golf, warship, fishing, fishing v2, racer, racer v2 and rock-paper-scissors. The Sigma report read tables that left the two v2 games out, so Fishing and Racer history here is higher than Sigma's from February 2026 onward, as is the Atlas Bucks awarded and penetration chart below.

Penetration on multi-game days

The Sigma bar divided minigame players by DAU once per minigame type, so days with two or four games running showed a quarter or half of the real share. This chart divides by DAU once.
